

# DENVER F2 ELECTRONIC BURNER - 1120 mm

Denver F2 is a bioethanol burner for built-in fireplace solutions, available in lengths of 520 mm, 720 mm, and 1120 mm. The centrally positioned front control panel ensures intuitive operation and an optimized internal layout.

The burner features two flame levels and an extended flame channel, delivering a uniform and continuous flame. An integrated CO<sub>2</sub> sensor enhances operational safety. Denver F2 is suitable for installation in non-combustible materials and is supplied as standard with an external fuel pump for safe refilling.

## GENERAL INFORMATION

|                |                  |
|----------------|------------------|
| Model          | Denver F2        |
| Configuration  | 1120 mm          |
| Burner Model   | Denver F2 - 1120 |
| Operation Type | Electronic       |
| Production     | Made in Denmark  |

## DESIGN & MATERIALS

|                |                                           |
|----------------|-------------------------------------------|
| Material       | Stainless steel / Powder-coated aluminium |
| Finish         | Standard black powder coating             |
| Glass Quality  | Tempered diamond clear glass              |
| Standard Glass | 1x Low Glass                              |

**BURNER SPECIFICATIONS**

|                |                        |
|----------------|------------------------|
| Fuel Type      | Bioethanol 95 - 96.5 % |
| Flametray (mm) | 1000                   |
| Flame Levels   | 2                      |

**PHYSICAL SPECIFICATIONS**

|                       |                                  |
|-----------------------|----------------------------------|
| Dimensions (mm)       | W: 1120 × H: 163 × D: 215        |
| Glass Dimensions (mm) | Low Glass: L: 996 × H: 65 × T: 4 |
| Weight: (kg)          | 21.0                             |

**PERFORMANCE**

|                          |                          |
|--------------------------|--------------------------|
| Capacity (L)             | 7.6                      |
| Max Level Burn Time (H)  | 8.4                      |
| Nominal Heat Output (kW) | 5.1                      |
| Fuel consumption (ml/h)  | Depending on flame level |

**INSTALLATION REQUIREMENTS**

|                                     |                                                                |
|-------------------------------------|----------------------------------------------------------------|
| Cut-out Dimensions (mm)             | W: 1105 × H: 250 × D: 200 - Min. air gap above cut-out: 500 mm |
| Minimum Room Size (m <sup>3</sup> ) | 140                                                            |
| Power Supply                        | 230 V AC (220 V compatible), 50–60 Hz, earthed supply          |
| Chimney                             | Not Required                                                   |
| Installation Environment            | Indoor                                                         |

**FEATURES**

|                   |                                                                                               |
|-------------------|-----------------------------------------------------------------------------------------------|
| Safety Features   | Automatic emergency shut-off / Spill and safety sensors / CO <sub>2</sub> Sensor              |
| Included Features | e-Ribbon Technology / Remote Control / External Fuel Pump with Quick Connection / LCD display |
| Add-on Features   | N/A                                                                                           |

**DISCLAIMER – DECOFLAME ApS**

All product specifications and technical data are subject to change without prior notice and are considered accurate as of the date of publication. DecoFlame ApS, including its affiliates, employees, agents and other representatives (collectively referred to as "DecoFlame ApS"), disclaims all liability for any errors, inaccuracies, or omissions in this document or in any other product-related information. DecoFlame ApS shall not be held liable for any damage, loss, or indirect consequences arising from the use, installation, or operation of the products, unless otherwise required under applicable law. It is the user's responsibility to ensure correct installation and usage in accordance with applicable safety standards and the manufacturer's instructions. No licence, whether express or implied, to any intellectual property rights is granted through this document. Customers who use or sell DecoFlame ApS products for purposes not explicitly specified do so at their own risk and agree to indemnify DecoFlame ApS against any claims or damages resulting from such use. Fuel consumption may vary depending on individual units, environmental conditions, and operating parameters. Product images are for illustrative purposes only and may differ from the actual product. This limitation of liability does not apply where it would conflict with mandatory consumer protection laws.
